Re: FCS Fischer, Ltd. 27.27

POADP # 687

Dear Mr. Rion:

The City Staff Development Review Committee has reviewed FCS Fischer, Ltd. 27.27 Subdivision Preliminary Overall Area Development Plan # 687. Please find enclosed a signed copy for your files. Your plan was accepted, however please note the following:

- In consideration of public safety and convenience, excessive grades by reason of topography should be avoided in street layouts and arrangements.
- Access and R.O.W. issues along state facilities will need to be resolved with the Texas Department of Transportation (TXDOT). For information about these requirements you can contact TXDOT at 615-5814.
- This development will need to comply with tree preservation ordinance #85262. For information about these requirements you can contact Building Inspections at 207-7102.
- It will be expected that you will plat all of the property depicted in your POADP, to include: floodplains, drainage areas and open space.
- I would encourage you to work closely with the school district, so that they can plan accordingly.

Mr. Rion
Page 2
November 22, 2000

Please note that this action by the committee does not establish any commitment for the provision of utilities, services or zoning of any type now or in the future by the City of San Antonio. If the proposed development is not platted in phases this POADP will be invalid.

All Platting will have to comply with the Unified Development Code, Master Plan and Major Thoroughfare Plan for the city of San Antonio.

If you have any questions regarding this matter, please contact Mr. Michael O. Herrera, at (210) 207-7900.

Sincerely,

A handwritten signature in black ink, appearing to read "Emil R. Moncivais".

San Antonio, Texas 78283-3966

<u>P.O.A.D.P. Reviewed for:</u>	<u>Comments</u>
Noise Mitigation	For residential development directly adjacent to State ROW, the developer shall be responsible for adequate set-back and/or sound abatement.
R.O.W. Requirements	None anticipated.
Access Limits/Restrictions	This property is eligible for a maximum combined total of nine access points, based on the overall combined frontage. Locations of eligible access points will be as directed by "Regulations For Access Driveways to State Highways".
WPAP Requirements	At the time of platting a complete copy of the approved WPAP will be required. No access permits will be issued prior to receipt of the approved WPAP.

Permit applications along with plans for street, driveway, utility, sidewalk and drainage construction must be submitted to the Texas Department of Transportation for review and approval before working on highway ROW. TxDOT requires that a recorded plat accompany all driveway permit applications. The Owner/Developer is responsible for preventing any adverse impact to the existing drainage system within highway ROW.

Interdepartment Correspondence Sheet

TO: Zoning Commission

FROM: Engineering and Traffic Division

COPIES TO: File

SUBJECT: Fischer Tracts, Level 3 Traffic Impact Analysis

Date: December 23, 1999

The Engineering and Traffic Division has reviewed the Level-3 Traffic Impact Analysis for the proposed office park and shopping center located north and south of Loop 1604 between Bulverde and Redland. By virtue of simply identifying the traffic impacts, it is in compliance with the Traffic Impact Analysis Ordinance 84917.

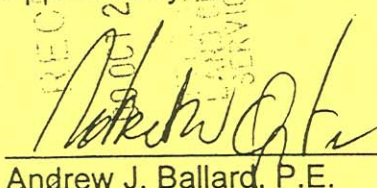

Based on the 6th edition of the ITE Trip Generation Manual, this development is estimated to generate up to 4,512 peak hour trips. These trips will be distributed along the eastbound and westbound Loop 1604 frontage roads, Bulverde Road, Jones Maltsberger, and Redland Road.

Note:

This development shall be closely coordinated with the City of San Antonio and TxDOT during the POADP level in order to address any adjustments to the existing roadways. Modifications to the submitted Level 3 TIA will be required as a result of adjustments resulting in the POADP process. In addition, the Engineering and Traffic Division recommends submittal of onsite design at the POADP level in order to expedite the building process.

Subject: FCS Fischer

Mike

Pape Dawson has sent me clarification which outlines the 9 acre, 27 acre and 86 acre Fischer Tract POADPs. The area and land-use appears to coincide with the original the Level 3 Fischer TIA. Please let me know if you need a copy of the approval letter dated 12-30-99.

Also, due to the unusual road network in this area, please let me know if the Major Thoroughfare Plan is adjusted in any way which may change the expected traffic patterns for these Fischer submittals.

Please call me if you need anything else.
Todd

Michael Herrera

From: Todd Sang
Sent: Friday, September 22, 2000 4:35 PM
To: Michael Herrera
Cc: James Clements
Subject: RE: TIAs

Mike

1) FCS Fisher Tracts--I have an approved TIA for the Fisher Tract with a note stating:

"This development shall be closely coordinated with the City of San Antonio and TxDOT during the POADP level in order to address any adjustments to the existing roadways. Modifications to the submitted Level 3 TIA will be required as a result of adjustments resulting in the POADP process. In addition, the Engineering and Traffic Division recommends submittal of onsite design at the POADP level in order to expedite the building process."

Therefore, Pape Dawson will need to identify the land use and trips associated with the three FCS Fisher Tracts and the originally submitted Level 3 TIA. I would also like to see the alignment of the roadways as indicated on the Major Thoroughfare Plan. This information needs to be clearly represented along with site plans if available.

2) Encino Park--Plat#20000367--I do not have anything on file for this POADP. The original submittal may have predated the TIA ordinance. Please let me know when the original was submitted.

In the future, please send copies the POADPs to me so I may have more time to investigate past submittals

Thanks

Todd

Subject: Los Caminos

Mike,

I received a Level 1 TIA for the Los Caminos POADP on 9-22-00. Please allow at least two weeks for Traffic comments/review.

Note: I received only one copy of the above TIA without the review fee. Therefore, the review may be delayed do to an incomplete submittal.

Thanks

Todd Sang
